

## Information

Cosmetic Tattooing is considered a permanent procedure as you will not be able to wash your result off. However your body will naturally metabolise the pigment over the years. It generally lasts from 1-5 years. This procedure uses Micro Pigmentation. Machine tattooed brows that leaves a soft/powdery finish within a crisp design.

Our line of pigments are carbon based and contain no nickel or heavy metals. The ingredients are a combination of powdered pigments, glycerin, witch hazel, isopropyl alcohol, titanium dioxide, iron oxide, Aqua, rosin and DMDM hydantoin.

These are safe, non-reactive substances which have been specifically designed and manufactured for implantation into the human skin. They are gamma-ray sterilised, vegan and cruelty free.

## Pricing

\$500 (including your 6 week touch up)

## Before and After

## Intro to me

My name is Courtney Conway, I am 24 years old and started CL Beauty Room a little over 4 years ago. What started out as just doing makeup on weekends is now my full time job doing treatments such as Brow tattooing, brow sculpts, dye and lamination, lash lifts and laser hair removal and I wouldn't change it for the world.

## What happens at the appointment

The pigments are carefully selected to suit each individual skin tone. The choice of colours depend on your skin tone, the colour of your hair and eyes. The tattoo is precisely placed into your skin, behind and between your existing hair to create an overall better/fuller eyebrow. The shape is drawn and measured during the start of your appointment and tattooing will only begin once you have agreed that it is the shape you love.

## Aftercare

The first 10 days are crucial for the healing process and 90% of your result will depend on how well you look after them. You cannot get your healing eyebrows wet. (7-10 days). You must however keep the healing brows clean, you can do so by gently wiping them daily with a fragrance free wipe. A tiny amount of aftercare ointment needs to be applied daily after the initial 48 hours. After 5-7 days, exfoliation will take place. The top layer of the skin will peel off, leaving a softer, lighter colour below. After 6 weeks you will have a touch up, this is included in the initial price and is used as a perfecting session to ensure you get the best results.
